Importance: High

As Chair of the BACWA Biosolids Committee, I have been asked to pass along information and encourage you to lend some support on a somewhat challenging issue. Biosolids compost continues to challenge the SFPUC. Please consider asking your agency to send a support letter to help us all maintain the limited number of biosolids management practices.

Attached is a copy of the letter from BACWA and the following are links to support letters posted on CASA's web site.

- [US Composting Council](#)
- [Northwest Biosolids Management Association](#)
- [North East Biosolids and Residuals Association](#)
- [CASA](#)
- [Mid-Atlantic Biosolids Association](#)
- [California Water Environment Association](#)

Thanks

Importance: High

Hi Greg,

Would you send a request out to the Biosolids Committee and anyone else that you think appropriate to encourage them to support SF's compost giveaway program? The Chronicle has picked up on article ([you can view it here](#)) and additional support from the heads of other agencies and cities is needed. I have attached the letter that BACWA sent, which can be used as a template. I can also resend the CASA letter.

Thanks!

Amy
